

**Paul Huijing, P.E.**

*Professional Engineer | Principal*

Paul Huijing brings more than 30 years of engineering and construction experience to Advanced Reserve Solutions. He is a licensed Professional Mechanical Engineer and a Massachusetts-licensed general contractor.

Paul's background includes building design, construction management, property insurance forensic investigations, and mediation of construction-related disputes. His work spans both residential and commercial structures, with a strong emphasis on building durability, energy performance, and constructibility.

He is a continuing education instructor for Massachusetts Construction Supervisor License (CSL) holders and regularly teaches courses on energy codes, super-insulated wall assemblies, air-tight construction, jobsite safety, and durable flashing details to prevent moisture intrusion.

Paul holds bachelor's and master's degrees in Mechanical Engineering from Cornell University. In addition to his Professional Engineer license, he holds Massachusetts Construction Supervisor and Home Improvement Contractor licenses.

He is active in CAI-New England and CAI-Connecticut, and in the Home Builders and Remodelers Association of Western Massachusetts, where he serves on both state and local Boards of Directors.

Paul has authored articles for the Journal of Light Construction, The Springfield Republican, and Living Spaces magazine, and has presented construction seminars at the Journal of Light Construction Conference and the Northeast Sustainable Energy Association Building Energy Conference.
